Skills

Languages : Dart, Java

Libraries : Flutter

Technologies & Tools: Git, Github, Visual Studio Code, Android Studio, Debugging

Other : Application Development, Sqflite, Database Connectivity, State management, API binding, Firebase

Work Experience

Internship - Flutter Developer

Biencaps Systems Private Limited , Pune

- During my internship, I gained hands-on experience in Application Development, Dart programming language and Flutter framework, specializing in state management, widget utilization, Sqflite database integration, and API binding. This experience equipped me with a solid foundation in Flutter application development.

Education

RMD Sinhgad School of Engineering

B.E. in Computer Science and Engineering

Aug 2020 - Jun 2024

CGPA: 8.25/10

Janata English School And Junior College Saikheda

HSC

Aug 2018 - Jun 2020

Percentage: 59.23/100

Janata Vidyalaya Sonambe

SSC

Jun 2018

Percentage: 74.20/100

Project Work

• Quiz App (Jan 2024):

Experience a seamless journey of knowledge exploration with our Flutter Quiz App. Featuring a responsive UI and intuitive navigation, dive into engaging quizzes, track your progress, and celebrate achievements. Special thanks to mentors and Core2web for their invaluable support.

• Basic To-Do List (Feb 2024):

- Developed a Basic To-Do List App showcasing expertise in key Flutter concepts including UI design, model class implementation, efficient state management, and responsive UI development
- Utilized Flutter's capabilities to create an intuitive user interface with features such as task management, adding new tasks via BottomSheet, deadline setting, and edit/delete functionalities
- Recognized for collaborative skills and grateful for mentorship from industry experts

• Advanced To-Do List (Mar 2024):

- Developed an innovative To-Do List application utilizing Flutter, incorporating essential features such as login, Sqflite database integration, and advanced task management capabilities.

- Showcased deep proficiency in UI design, state management, and secure data handling, effectively enhancing user experience and data protection.
- Constructed a robust and user-friendly interface with seamless editing and deletion functionalities, ensuring efficient task completion and deadline management.
- Successfully implemented advanced functionalities, including deadline tracking and task prioritization, resulting in an enhanced productivity solution for users.
- Highlighted expertise in building reliable and secure applications, utilizing Flutter's capabilities to create a cutting-edge To-Do List app.

- **Expense Manager (Apr 2024):**

- Developed Expense Manager app in Flutter utilizing MVC architecture
- Implemented state management, login functionality, and Sqflite database integration
- Demonstrated expertise in UI design and state management techniques
- Explored API binding for enhanced functionality
- Successfully built and delivered a comprehensive expense management solution

- **Student Announcements:**

Mobile app for schools/universities to send targeted announcements with push notifications. Easy student access with categories and offline functionality (optional). Highlights mobile dev skills (Flutter/Dart) and Firebase integration.

- **Travel App:**

User-friendly app to book hotels. Secure login & manages bookings offline (Sqflite). Showcases mobile dev skills (Flutter/Dart) & database management.

Awards and Certificates
